OK – I made a few changes. I’ve attached those to this email. Please look at the index in the back too – I added in 0345. I am still struggling to figure out what number to use in the document. In Unit I of the r2c we say 348 in the public view, but our index runs to 350. The FR notice as it appears at the FR site indicates 343 comments. Regulations.gov itself says 348. Meanwhile comment 0345 looks like maybe all of the 5,310 might be attached to it? I dare not open for fear of getting trapped there. Let’s just decide on a number. My preference would be to go with 348 posted for public view by regulations.gov. If we do that, we should probably make the index consistent at 348. I also looked at 0345 and it looks like the 5,310 comments are attached within that posting. I changed the language to reflect that.

Thanks for catching this and doing the initial lift.

I am still waiting for EISD to phone me back. I tried phoning at noon to see why they had not yet phoned me. I gather that they are pretty busy.

Elizabeth,

We’ve made a few other changes to the r2c doc on sharepoint, so if you make changes on the document I sent, just let me know and I will add them to the sharepoint document and send the document around so everyone has a copy prior to sending to OGC.

Thanks.
